The dining room connects to a walk-through butler's pantry equipped with a second fridge, dishwasher, and sink. The grand kitchen is a chef's dream, showcasing Thermador appliances, including a 5-burner gas cooktop, dual wall ovens with convection and steam options, refrigerator, dishwasher, and two additional sinks—each with its own garbage disposal. A spacious sit-at island, custom cabinetry with ample storage, and rollout drawers add to the functionality. The adjacent eating area offers double French door access to the sun-soaked, south-facing patio and a fully equipped outdoor kitchen featuring a built-in BBQ, two-burner cooktop, stainless steel cabinetry, and a pathway to the oversized, heated three-car garage. The open-concept family room, warmed by a second gas fireplace, is filled with natural light from a multitude of windows, creating an inviting and airy atmosphere. Integrated throughout the main floor and back patio is a built-in speaker system, perfect for entertaining indoors and out. The entire home is wired with a premium Control4 system that manages the theatre setup, ceiling speakers, and exterior

lighting. A stunning custom staircase illuminated by a central skylight leads to the upper level, where youâ€™ll find three generous bedrooms and a well-appointed laundry room. The primary bedroom is a true retreat with vaulted ceilings, dual walk-in closets, and a spa-like five-piece ensuite with a steam shower and soaker tub. Both secondary bedrooms feature walk-in closets, full ensuite baths, and charming built-in window benches. All ensuite bathrooms are equipped with in-floor heating for year-round comfort. The fully developed lower level includes two additional bedrooms, a full bathroom, a private den with built-in credenza and bookshelves, and a dedicated theatre space with a custom entertainment unit and a third gas fireplace. A stylish wet bar with a walk-in wine room completes this level, making it ideal for entertaining. Comfort is further enhanced by in-floor heating beneath the basement slab. Notable extras include dual air conditioning units, outdoor hot water taps, a spacious mudroom with utility sink and additional built-in storage, and smartly timed automated backyard and alley lighting that activates when garage bay doors or the mudroom door open or by a motion sensor.
